

The easy way to time saving settlement

Within IBEKO Service PROMOS takes over operative activities of service charge settlements and works in the customers' SAP® directly without any media disruptions. From the agreement on master data and the data transfer with meter reading company for heating, to the audit and accounting activities through to the print and shipping of statements – the level of service can be configured individually by the customer's wishes.

Your Benefit

Fasten-up of processes: The generation of utilities statements is expedited significantly with IBEKO Services. Additionally you get opportunities to compromise additional payment demands much faster.

Cost savings: You save investments in printing, mailing and their processes.

Integrated operating cost settlements: As a result you get a utilities statement view which is portfolio-wide and independent of meter reading service providers.
